

A handwritten signature in blue ink, appearing to be "A. Arlen", is written over a horizontal line.

SIGNED AT TORONTO ONTARIO this
Tuesday the 6 day of October 2009

ENVIRONMENTAL POLICY

Arlen Recycling Inc.'s environmental responsibility means that our actions will comply with the relevant environmental legislation, and that we will behave in a way that protects and preserves the environment.

The Company advocates sustainability and, through our examples and achievements, we will seek to inspire and encourage others.

We will offer products and services that allow our Customers to adopt the waste minimisation strategy of REDUCE, REUSE, RECYCLE and RECOVER as part of their strategic purchasing policy.

We have developed and implemented action plans to minimise our environmental impact and that of our Customers.

We have set realistic targets for continuous improvement in both the internal operations of the Company and in the range of products and services that we offer to our Customers.

We will use our influences and expertise to encourage all of our upstream partners to be aware of current environmental legislation and to ensure that all Customers are aware of their responsibilities with specific regard to the recycling or disposal of electronic waste and lead acid battery products.
